

Dear Members of the FCC

I wish to register an opposition comment on the FCC's changing the federal law that weakens State laws regarding the "No Call List." As you know, Wisconsin's law does one better. It gives supper time back to the family. And, by changing these restrictions, it takes away the tranquility that is ever so important in today's lifestyle. Life is difficult enough. Please keep the hometime truly private and peaceful. Therefore, I ask that the FCC considers my State's Rights my and family's tranquility. As a Wisconsin citizen, I applaud Wisconsin for their leading role in protecting their citizenry and family life from these telemarketing husksteers. What's wrong with the U.S. Mail? Thank you.
